## **ABSTRACT**

Large quantity muslims in Indonesia is not along with the quality of worship, especially prayers meaning, so many people are not perfect, and lax in their prayers, this is a problem is however, it is necessary for the children guidance fundamental in earnest. Meanwhile learning through a book feels less attractive for the children, techniques learned in multimedia then becomes an alternative, although many producers it, the matter is still inadequate and often noticed the little things that really very important, could practise by users in a mistaken.

Therefore later writers make a prayer guidance on overall matter in detail. thoroughly to prayer is intelligible a whole. Drafting the packed in a multimedia arranged systematically in separate talks on every different pages. so he could pick the one who want to learn all this without opening that are focused on the matter. Treats his regardful of indonesian muslims from various parties, and it is a theme of indonesian islamic culture with variation of softer colors, without neglecting the ethical and aesthetical.

It is to be used to learn on their own, as well as supporting and supplementary material learned religious facilities in education, for the students and teachers.

**Keywords:** multimedia, guidance for prayer, thoroughly, detail, effective, all the people, Islam in Indonesia.
