

ABSTRAK

Pendidikan merupakan usaha sadar dan terencana untuk mewujudkan suatu suasana belajar dan proses pembelajaran agar peserta didik secara aktif mengembangkan potensi dirinya, terbukti dengan banyaknya perguruan tinggi negeri maupun swasta yang memiliki kualitas dan kuantitas baik serta menghasilkan lulusan dengan kualitas kerja profesional. Berada ditengah perkembangan perguruan tinggi dan tuntutan lulusan Insinyur di Indonesia maka PII (Persatuan Insinyur Indonesia) melalui YPTI (Yayasan Pengembangan Teknologi Indonesia) mendirikan Institut Teknologi Indonesia.

Institut Teknologi Indonesia (ITI) adalah perguruan tinggi swasta yang dibentuk oleh Persatuan Insinyur Indonesia melalui Yayasan Pengembangan Teknologi Indonesia untuk memenuhi kebutuhan tenaga insinyur teknik di Indonesia. Pada awal berdirinya, ITI dikawal oleh beberapa nama besar tokoh-tokoh PII seperti Baharuddin Jusuf Habibie, Hartarto, Aburizal Bakrie, Ismet Iskandar, Tamudji, dan G.M. Tambubolon, dan mantan Mendikbud Prof. Dr Wardiman.

Pada 1 Oktober 1984, ITI diresmikan oleh Prof. Dr. Ing B.J. Habibie di Gedung Graha Purna Yudha Jakarta, dan tanggal tersebut ditetapkan sebagai Dies Natalis ITI. ITI berlokasi di daerah Serpong Banten yang kental dengan suasana teknologinya karena berdekatan dengan Pusat Penelitian Ilmu Pengetahuan dan Teknologi Serpong.

ABSTRACT

Education is a conscious and deliberate effort to create an atmosphere of learning and the learning process so that learners are actively developing her potential, as evidenced by the many public and private universities that have both quality and quantity, and to produce graduates with professional quality work. At the center of the development of college graduates and the demands of Engineers in Indonesia, PII (Indonesian Engineers Association) through YPTI (Technology Development Foundation of Indonesia) founded the Institut Teknologi Indonesia.

Indonesian Institute of Technology (ITI) is a private university established by the Indonesian Engineers Association through the Technology Development Foundation of Indonesia to meet the needs of engineers in Indonesia. At its inception, ITI escorted by several big-name luminaries such PII Baharuddin Jusuf Habibie, Hartanto, Bakrie, Ismet Iskandar, Tamudji, and GM Tambubolon, and former Education Minister Prof. Dr. Wardiman.

On October 1, 1984, was inaugurated by Prof. ITI. Dr..Ing B.J. Habibie in Full Graha Yudha Jakarta, and the date designated as Dies Natalis ITI. ITI is located in Serpong, Banten area is thick with atmosphere as close to technology Research Center for Science and Technology Serpong.
