Fantasy comic design on Lucid Dream

The design of the comic with the theme of the dream is still very minimal, it is still necessary to be entertaining approaches, to acquaint the public about the phenomenon of dreams and fantasies through comic fiction. Thus the authors tried to design the visual through the book in order to touch all walks of imagination through the phenomenon of dreams with the comics as a medium, and heroism as a genre story raised. Not a day longer formally introduce something, people are always hungry for entertainment is the main target of this comic design. electronic media are competing to offer the imagination of a dream, why not fantasy comics?
