ABSTRACT

This thesis discusses the influence of the inflation rate and the rate of return for the results of third party funds mudharabah. In this paper I examine the effect of inflation on the level of third party funds mudharabah, influence the level of return for the results of third party funds or profit and the latter discusses the simultaneous against third-party funds mudharabah. And the method is to use causal research methods and data used is the period from March 2004-December 2009.

The results of this analysis is partly that the inflation rate to fund a third party to exercise significant influence amounted to 0.006, the influence of the level of return for the results of third-party funds have effect of significance mudharabah for 0,030 and the last discusses the simultaneous against third-party funds a significant mudharabah Ln between inflation and the return for the results of DPKM KWDLN Ln, then H_0 is rejected and H_a accepted because F calculated $35.570 > F$ table 3.18.

Key words: Inflation, Return Sharing, Mudharabah Third Party Funds
