

ABSTRAKSI

PERANCANGAN SISTEM INFORMASI PENDAFTARAN SISWA BARU BERBASIS SMS GATEWAY PADA SEKOLAH XYZ

Kegiatan pendaftaran siswa baru sebagai bagian dari kegiatan penerimaan siswa baru merupakan kegiatan awal yang mesti menawarkan kemudahan khususnya dari sisi pendaftar. Hal ini terkait dengan undang-undang mengenai Dana Bantuan Operasional Sekolah (BOS) yang menghitung dana yang diterima sekolah berdasarkan banyaknya jumlah siswa dikalikan dengan nominal rupiah yang telah ditentukan pemerintah. Karena itu, setiap sekolah khususnya sekolah swasta harus mampu bersaing dengan memberikan kemudahan pendaftaran tanpa melupakan aturan-aturan yang berlaku.

Dengan dirancangnya sistem informasi pendaftaran siswa baru berbasis SMS gateway diharapkan mampu memberikan solusi bagi sekolah-sekolah yang ingin memberikan kemudahan pendaftaran khususnya dari sisi pendaftar. Hal ini tidak lepas dari keberadaan infrastruktur jaringan komunikasi selular yang sudah menyebar hampir di seluruh wilayah Indonesia.

ABSTRACT

DESIGNING A NEW STUDENT REGISTRATION INFORMATION SYSTEM BASED ON SMS GATEWAY AT SCHOOL OF XYZ

New student enrollment activities as part of new admissions is an initial activity must offer convenience, particularly for the student candidates. This is related to the laws on the budget of School Operational Assistance (BOS), which calculates the funds received by schools based on the large number of students multiplied by the sum of Rupiah has been determined by the government. Therefore, every school, particularly private schools should be able to compete by providing registration without forgetting the rules and regulations existing.

With a designed of a new student registration information system based on SMS gateway is expected to provide solutions for schools that want to provide easier of registration, particularly for the student candidates. This system is is possible to applied supported by the presence of the mobile communications network infrastructure that has spread almost all over Indonesia.
