DAFTAR ISI

SURAT PERNYATAAN KARYA SENDIRI ........................................................................... i
LEMBAR PENGESAHAN SKRIPSI........................................................................... ii
ABSTRAK..................................................................................................................... iii

BAB I PENDAHULUAN

A. Latar Belakang Penelitian.................................................................................. 1
B. Rumusan Masalah Penelitian.............................................................................. 10
C. Tujuan dan Kontribusi Penelitian
   1. Tujuan Penelitian.......................................................................................... 10
   2. Kontribusi Penelitian................................................................................... 11

BAB II KAJIAN PUSTAKA, KERANGKA KONSEPTUAL DAN PENGEMBANGAN HIPOTESIS

A. Kajian Pustaka
   1. Pengertian Pasar modal................................................................................. 12
   2. Pengertian Saham.......................................................................................... 12
   3. Macam-macam Jenis Saham......................................................................... 13
   4. Macam-macam Analisis Saham..................................................................... 16
   5. Pengertian Harga Saham.............................................................................. 16
   6. Faktor-faktor yang Mempengaruhi Saham................................................. 18
   7. Return On Equity (ROE)
      a. Pengertian Return On Equity (ROE)............................................................ 20
      b. Pengukuran Return On Equity (ROE).......................................................... 22
   8. Net Profit Margin (NPM)
      a. Pengetian Net Profit Margin (NPM)............................................................. 22
      b. Pengukuran Net Profit Margin (NPM).......................................................... 23
   9. Earning Per Share (EPS)
      a. Pengertian Earning Per Share (EPS)............................................................. 23
      b. Pengukuran Earning Per Share (EPS).......................................................... 24
   10. Penelitian Terdahulu...................................................................................... 25

BAB III METODE PENELITIAN

A. Waktu dan Tempat Penelitian ......................................................... 34
B. Desain Penelitian .............................................................................. 34
C. Definisi dan Operasional Variabel................................................... 35
   1. Definisi Return On Equity ............................................................ 36
   2. Definisi Net Profit Margin (NPM) ................................................ 36
   3. Definisi Earning Per Share (EPS) ................................................. 37
   4. Definisi Harga Saham ................................................................... 37
D. Pengukuran Variabel ....................................................................... 38
E. Populasi dan Sampel Penelitian
   1. Populasi Penelitian ....................................................................... 39
   2. Sampel Penelitian ......................................................................... 40
F. Teknik Pengumpulan Data ............................................................ 41
G. Metode Analisis
   1. Analisis Deskriptif ...................................................................... 41
   2. Analisa Kualitas Data
      a. Uji Stasioneritas...................................................................... 41
   3. Analisis Regresi Linear Data Panel ........................................... 43
   4. Model Regresi Data Panel
      a. Common Effect Model ........................................................... 46
      b. Fixxed Effect Model ............................................................... 46
      c. Random Effect Model ............................................................. 47
   5. Pemilihan Model Regresi Data Panel
      a. Uji F (test) chow .................................................................... 48
      b. Uji Hausman (test) .................................................................. 50
      c. Uji Langrange Multiple .......................................................... 51
   6. Uji Model Regresi Data Panel
      a. Koefisien Determinasi (R²)..................................................... 52
      b. Model Anova (Uji F) ............................................................... 53
      c. Uji Koefisien Regresi Data Panel............................................ 55

http://digilib.mercubuana.ac.id/
BAB IV  HASIL DAN PEMBAHASAN

A. Gambaran Umum Objek Penelitian
   1. Tempat dan Waktu Penelitian ....................................................... 57
   2. Karakteristik Profil Perusahaan ................................................... 57

B. Hasil Uji Stastistik Deskriptif ....................................................... 63

C. Hasil Uji Analisis Kelayakan Data
   1. Uji Stasioner Harga Saham ........................................................... 67
   2. Uji Stasioner Return On Equity (ROE) ......................................... 68
   3. Uji Stasioner Net Profit Margin (NPM) ....................................... 69
   4. Uji Stasioner Earning Per Share (EPS) ....................................... 71

D. Analisis Regresi Data Panel
   1. Model Data Panel
      a. Common Effect Model ............................................................ 72
      b. Fixed Effect Model ............................................................... 74
      c. Random Effect Model ........................................................... 76
   2. Pemilihan Model Regresi Data Panel
      a. Uji Chow ................................................................................ 78
      b. Uji Hausman ......................................................................... 79
      c. Uji Lagrange Multiplier ......................................................... 80
   3. Analisis Model Regresi Data Panel ............................................ 81
   4. Uji Kelayakan Model Regresi Data Panel
      a. Koefisien Determinasi ........................................................... 81
      b. Uji F .................................................................................... 82

E. Analisis Koefisien Data Panel
   a. Pengaruh Net Profit Margin Terhadap Harga Saham .......... 83
   b. Pengaruh Return On Equity Terhadap Harga Saham .......... 85
   c. Pengaruh Earning Per Share Terhadap Harga Saham .......... 87

F. Pembahasan Hasil Penelitian ....................................................... 88

BAB V  SIMPULAN DAN SARAN

A. Simpulan .................................................................................. 90
B. Saran ....................................................................................... 91
