KATA PENGANTAR ................................................................................................................ iii
DAFTAR ISI ............................................................................................................................ v
DAFTAR GAMBAR ................................................................................................................... vii
DAFTAR TABEL ...................................................................................................................... ix
ABSTRAK ................................................................................................................................. xi

**ABSTRACT** ............................................................................................................................. xii

**BAB I : PENDAHULUAN** .................................................................................................. 1

1.1 Latar Belakang Penelitian .................................................................................................. 1
1.2 Rumusan Permasalahan .................................................................................................... 2
1.3 Maksud Tujuan dan Manfaat Penelitian ....................................................................... 3
   1.3.1. Maksud Penelitian .................................................................................................... 3
   1.3.2. Tujuan Penelitian .................................................................................................... 3
   1.3.3. Manfaat Penelitian .................................................................................................. 3
1.4 Sistematika Pembahasan .................................................................................................. 4
1.5 Kerangka Pikir Penelitian ............................................................................................... 5

**BAB II : KAJIAN PUSTAKA** ............................................................................................... 6

2.1 Landasan Teoritis ............................................................................................................ 6
2.2 Kajian Teoritis ................................................................................................................. 7
   2.2.1. Definisi Rumah Tinggal ........................................................................................ 7
      2.2.1.1. Jenis-Jenis Rumah Tinggal ........................................................................ 7
      2.2.1.2. Fungsi Rumah Tinggal ............................................................................. 10
   2.2.2. Pengertian Perumahan ......................................................................................... 10
   2.2.3. Definisi Fasad ....................................................................................................... 11
      2.2.3.1. Elemen-Elemen Fasad ......................................................................... 12
      2.2.3.2. Elemen-Elemen Pendukung Fasad ..................................................... 17
   2.2.4. Perubahan Atau Transformasi ............................................................................ 21
      2.2.4.1. Definisi Perubahan Atau Transformasi .............................................. 21
      2.2.4.2. Tahapan Perubahan Atau Transformasi ............................................. 21
      2.2.4.3. Faktor Yang Menyebabkan Terjadinya Transformasi ..................... 22
2.3 Kesimpulan ..................................................................................................................... 23
2.4 Kerangka Teoritis ........................................................................................................... 26
BAB III : METODE PENELITIAN ................................................................. 27
3.1 Pendekatan Metode Penelitian ......................................................... 27
3.2 Tahapan Penelitian ........................................................................... 28
3.3 Sampling Penelitian .......................................................................... 28
  3.3.1. Kriteria Pemilihan Objek Penelitian ........................................... 28
  3.3.2. Deskripsi Umum Objek Penelitian ............................................. 29
  3.3.3. Kriteria Penentuan Sampel Dan Jumlah Sampel Penelitian .......... 32
3.4 Metode Pengumpulan Data dan Rancangan Instrumen Penelitian ...... 33
  3.4.1. Observasi .................................................................................. 33
    3.4.1.1. Studi Pustaka .................................................................... 33
    3.4.1.2. Pengumpulan Data ............................................................ 33
    3.4.1.3. Alat-Alat Yang Diperlukan .................................................. 35
  3.4.2. Wawancara ................................................................................ 35
    3.4.2.1. Pengumpulan Data ............................................................ 35
    3.4.2.2. Alat-Alat Yang Diperlukan .................................................. 37
  3.4.3. Instrumen Penelitian ................................................................... 37
    3.4.3.1. Alat Tulis Kerja ................................................................. 37
    3.4.3.2. Kamera ............................................................................. 37
3.5 Metode Analisa Data ........................................................................ 38

BAB IV : HASIL DAN PEMBAHASAN ........................................................ 39
4.1 Tata Kelola kawasan ................................................................. 39
  4.1.1. Struktur Organisasi ................................................................. 40
  4.1.2. Kondisi Awal Kawasan ......................................................... 41
4.2 Tata Bangunan ................................................................................. 42
  4.2.1. Identifikasi Tata Guna Bangunan ............................................. 42
  4.2.2. Identifikasi Garis Sempadan Bangunan .................................... 48
  4.2.3. Identifikasi Jumlah Lantai ....................................................... 51
  4.2.4. Identifikasi Jenis Kavling ....................................................... 55
4.3 Identifikasi Elemen Fasad Bangunan .............................................. 57
  4.3.1. Bentuk Atap Dan Material ....................................................... 65
  4.3.2. Desain Bentuk Pintu ............................................................... 69
  4.3.3. Bentuk Jendela ....................................................................... 72
  4.3.4. Bentuk Ventilasi Udara ........................................................... 73
  4.3.5. Ornamen ............................................................................... 74
  4.3.6. Ac ........................................................................................ 75
4.4 Evaluasi Fasad Bangunan ............................................................. 76

BAB V : KESIMPULAN DAN SARAN ....................................................... 82
5.1. Kesimpulan .................................................................................. 82
  5.1.1. Tata Bangunan ................................................................. 82
5.1.2. Garis Sempadan Bangunan ......................................................... 82
5.1.3. Jenis kavling .............................................................................. 82
5.1.4. Jumlah Lantai ........................................................................... 83
5.1.5. Elemen Fasad Bangunan ........................................................... 83

5.2. Saran .......................................................................................... 85
