

ABSTRAK

Penelitian ini untuk mengetahui pengaruh ukuran perusahaan, *corporate governance*, dan struktur modal terhadap nilai perusahaan. Objek penelitian ini adalah perusahaan Konsumsi di Indonesia yang terdaftar di Bursa Efek Indonesia selama periode 2012-2016. Penelitian ini dilakukan terhadap 22 perusahaan dengan menggunakan pendekatan diskriptif kuantitatif. Oleh karena itu, analisis data yang digunakan adalah analisis statistik dalam bentuk uji regresi liner berganda.

Hasil penelitian ini menunjukkan bahwa secara parsial kepemilikan institusional, dewan direksi, dan struktur modal berpengaruh terhadap nilai perusahaan sedangkan ukuran perusahaan, komisaris independen dan komite audit tidak berpengaruh terhadap nilai perusahaan. Sedangkan secara simultan variable ukuran perusahaan, kepemilikan institusional, dewan direksi, komisaris independen, komite audit, dan struktur modal berpengaruh terhadap nilai perusahaan. Hal ini dibuktikan dari hasil uji simultan (Uji F) dan hasil uji parsial (uji t) juga menunjukkan nilai dari keenam variable bebas yang mendukung hipotesa.

Kata kunci : ukuran perusahaan, kepemilikan institusional, dewan direksi, komisaris independen, komite audit, struktur modal dan nilai perusahaan

ABSTRACT

This research aim to know the influence of partially and simultaneously of the size of company, institutional ownership, board of director, independent commissioner, audit committee, and capital structure against the value of company. The object of this research is the Indonesian consumption company listed on the Indonesia Stock Exchange during the period 2012-2016. This study was conducted on 22 companies by using quantitative approach descriptive. Therefore , the analysis of the data used is the statistical analysis in the form of multiple linear regression test.

These results indicate that in partial institutional ownership, board of director, and capital structure affect the value of the company, while the size of company, independent commissioner, and audit committee does not affect the value of the company. While simultaneously the variable size of company, institutional ownership, board of director, independent commissioner, audit committee, and capital structure effect on firm value. This is evidenced from the results of simultaneous test (F test) and the results of the partial test (t test) also shows the value of the six independent variables that support the hypothesis

Keyword: size of company, institutional ownership, board of director, independent commissioner, audit committee, capital structure, and firm value
