ABSTRACT

Engklek (in Javanese) is a traditional jumping game on a plane that is drawn on the ground. The game is played by making a picture of boxes, throwing a stone, jumping with one leg out from one box to another, then the players will try to find a home, and this game is usually played in the yard. Along with advances in technology, children traditional games began to be replaced by modern games. As one of the forms to maintain and preserve a traditional game in need of a media that can reintroduce traditional games is using board game. D'Engklek Board Game is a board game that adapts the traditional game system of engklek by being modified using a modular board mechanism where the board or tile are made separately. The game begins by randomly assembling the plot boards so that the game feels different every time it is played.
