

ABSTRACT

This study aims to examine risk analysis of the company through good corporate as intervening business on sustainable company (Case Study on Sub Sector Banking in BEI period 2016). The sampling method used was purposive sampling. Population of 43 banking industry and there are 38 meet the criteria as a sample. The analytical method used structure equation models with warpPLS software. The result of study show liquidity coverage ratio, capital adequacy ratio, loan loss provisioning and non performing loan have significant positive effect on good corporate governance. Capital adequacy ratio and good corporate governance have significant positive effect on sustainable company, but liquidity coverage ratio, loan loss provisioning and non performing loan have no significant positive effect on sustainable company. The highest influence from overall model is shown by the effect of good corporate governance on sustainable company.

Keywords: *liquidity coverage ratio (LCR), capital adequacy ratio (CAR), cadangan kerugian penurunan nilai (CKPN), non performing loan (NPL), good corporate governance (GCG), sustainable company*

ABSTRAK

Penelitian ini bertujuan menguji dan menganalisis risiko perusahaan melalui *good corporate* sebagai intervening *business* terhadap *sustainable* perusahaan (Studi kasus pada Sub Sektor Perbankan di BEI periode 2016). Metode sampling yang digunakan adalah purposive sampling. Populasi penelitian sebanyak 43 industri perbankan dan terdapat 38 yang memenuhi kriteria sebagai sampel. Metode analisis yang digunakan dalam penelitian adalah *structural equation modeling* dengan software WarpPLS. Hasil penelitian menunjukkan *liquidity coverage ratio*, *capital adequacy ratio*, *cadangan kerugian penurunan nilai* dan *non performing loan* berpengaruh signifikan positif terhadap *good corporate governance*. Sedangkan *Capital adequacy ratio* dan *good corporate governance* berpengaruh signifikan positif terhadap *Sustainability* Perusahaan, namun *liquidity coverage ratio*, *cadangan kerugian penurunan nilai* dan *non performing loan* tidak berpengaruh terhadap *Sustainability* Perusahaan. *Good corporate governance* merupakan variabel yang paling besar pengaruhnya terhadap *Sustainable* Perusahaan.

Kata kuncinya: *liquidity coverage ratio (LCR)*, *capital adequacy ratio (CAR)*, *cadangan kerugian penurunan nilai (CKPN)*, *non performing loan (NPL)*, *good corporate governance (GCG)*, *sustainable* perusahaan
