DAFTAR ISI ................................................................................................................ vii

DAFTAR TABEL .......................................................................................................... xi

DAFTAR GAMBAR ...................................................................................................... xii

BAB I PENDAHULUAN .............................................................................................. 1-1

1.1. Latar Belakang ................................................................................................. 1
1.2. Perumusan Masalah ..................................................................................... 3
1.3. Tujuan dan Manfaat .................................................................................. 3
1.3.1. Tujuan Penelitian .................................................................................. 3
1.3.2. Manfaat Penelitian .............................................................................. 3
1.4. Ruang Lingkup & Batasan Masalah ............................................................ 4
1.5. Metodologi Penelitian .................................................................................. 4
1.5.1. Metodologi Rekayasa Perangkat Lunak .............................................. 5
1.6. Sistematika Penulisan Laporan ................................................................... 7

BAB II TINJAUAN PUSTAKA ................................................................................... 9

2.1. Aplikasi ........................................................................................................... 9

http://digilib.mercubuana.ac.id/
2.1.1. Lelang................................................................. 9
2.2. Aplikasi Mobile ................................................. 10
2.3. Android .............................................................. 10
2.4. Software ............................................................. 11
  2.4.1. Android Studio ............................................. 11
  2.4.2. Android SDK ................................................. 12
  2.4.3. Wamp Server .............................................. 13
  2.4.4. Sublime Text ............................................... 13
2.5. Bahasa Program .................................................. 13
  2.5.1. MySQL ......................................................... 13
  2.5.2. Java ............................................................ 14
  2.5.3. Hypertext Preprocessor (PHP) ...................... 15
2.6. Algoritma ............................................................ 15
  2.6.1. Flowchart ................................................... 16
  2.6.2. Unified Modeling Language (UML) ................. 17
  2.6.3. Algoritma Round Robin ............................... 20
2.7. Web Service ....................................................... 20
2.8. Konsep Blackbox Testing (Pengujian Kotak Hitam) .... 21
2.9. Penelitian Terdahulu .......................................... 22
2.10. Penelitian Aplikasi ............................................. 23

BAB III ANALISA SISTEM ............................................. 25

3.1. Analisis Permasalahan ....................................... 25
  3.1.1. Analisis Sistem Berjalan ............................ 25
3.2. Flowchart .......................................................... 27
3.3. Analisa Kebutuhan ........................................................................................................... 31

BAB IV PERANCANGAN SISTEM ......................................................................................... 32

4.1. Perancangan Sistem ........................................................................................................... 32
  4.1.1. Use Case Diagram ........................................................................................................ 32
  4.1.2. Activity Diagram .......................................................................................................... 36
  4.1.3. Sequence Diagram ...................................................................................................... 40
  4.1.4. Class Diagram ............................................................................................................. 41

4.2. Perancangan Desain Antarmuka Sistem ......................................................................... 43

BAB V IMPLEMENTASI DAN PENGUJIAN ........................................................................ 46

5.1. Implementasi ....................................................................................................................... 46
5.2. Implementasi Perangkat Lunak ....................................................................................... 46
5.3. Implementasi Perangkat Keras ......................................................................................... 47
5.4. Implementasi Basis Data .................................................................................................. 47
5.5. Implementasi Antarmuka .................................................................................................. 51
  5.5.1. Halaman Login Android ............................................................................................. 51
  5.5.2. Halaman Register Android ......................................................................................... 52
  5.5.3. Halaman Home Android ............................................................................................ 53
  5.5.4. Halaman Add New Auction ....................................................................................... 53
  5.5.5. Halaman Category Android ....................................................................................... 54
  5.5.6. Halaman Detail Menu ............................................................................................... 55
  5.5.7. Halaman Bid ............................................................................................................... 55
  5.5.8. Halaman WebService Admin .................................................................................... 56
  5.5.9. Halaman WebService Admin Dashboard ................................................................. 57
  5.5.10. Halaman WebService Admin Category List ............................................................ 57
  5.5.11. Halaman WebService Admin Menu List ................................................................. 58

5.6. Pengujian Fungsionalitas .................................................................................................. 58
  5.6.1. Pengujian Pengelolaan Kegiatan ............................................................................... 58
5.7. Analisis Hasil Pengujian........................................................................ 59

BAB VI KESIMPULAN DAN SARAN ............................................................ 61

6.1. Kesimpulan ............................................................................................ 61
6.2. Saran ...................................................................................................... 61
