

## **ABSTRACT**

*Currently the concept of e-learning system has been widely accepted by the world community, as evidenced by the rampant implementation of e-learning institutionalized education. As one of the vocational high schools located in Jakarta, SMK Multi Media Mandiri participates in transferring knowledge to its students. During this time all the learning process at SMK Multi Media Mandiri Jakarta is still conventional, the role of e-learning application as a new application of the system of teaching and e-learning process so that teachers and students are able to communicate in sharing lessons outside the classroom. E-learning application can be an alternative in the process of teaching and learning when teachers can not provide tasks, materials in the classroom.*

*Keywords: Applications, Android, E-learning, Teachers, Students, Learning*

## ABSTRAK

Saat ini konsep *system e-learning* sudah banyak diterima oleh masyarakat dunia, terbukti dengan maraknya implementasi *e-learning* dilembaga pendidikan. Sebagai salah satu sekolah menengah kejuruan yang berada di Jakarta, SMK Multi Media Mandiri berperan serta dalam mentransfer ilmu pengetahuan kepada para siswa – siswinya. Selama ini semua proses pembelajaran di SMK Multi Media Mandiri Jakarta masih bersifat konvensional, peran dari aplikasi *e-learning* sebagai suatu penerapan baru dari sistem proses belajar mengajar agar guru dan siswa mampu berkomunikasi dalam membagikan pelajaran diluar kelas. Aplikasi *e-learning* mampu menjadi salah satu alternatif dalam proses belajar mengajar ketika guru tidak dapat memberikan tugas, materi didalam kelas.

**Kata Kunci:** Aplikasi, *Android*, *E-learning*, Guru, Siswa, Pembelajaran
