**DAFTAR GAMBAR**

|             |   |         |
|-------------|---|---------|
| Gambar 2.1  | : Lokasi Proyek .....   | II - 5  |
| Gambar 3.1  | : Skema Organisasi Proyek .....                                 | III - 7 |
| Gambar 4.1  | : <i>Tower Crane</i> .....                                      | IV - 2  |
| Gambar 4.2  | : Spesifikasi <i>Tower Crane</i> .....                          | IV - 2  |
| Gambar 4.3  | : <i>Tower Crane</i> bagian bawah .....                         | IV - 4  |
| Gambar 4.4  | : <i>Tower Crane</i> bagian Atas .....                          | IV - 4  |
| Gambar 4.5  | : <i>Truck Mixer</i> .....                                      | IV - 5  |
| Gambar 4.6  | : <i>Concrete Pump1</i> .....                                   | IV - 6  |
| Gambar 4.7  | : <i>Concrete Pump2</i> .....                                   | IV - 6  |
| Gambar 4.8  | : <i>Concrete Bucket</i> .....                                  | IV - 7  |
| Gambar 4.9  | : <i>Bar Bender</i> .....                                       | IV - 7  |
| Gambar 4.10 | : <i>Bar Cutter 1</i> .....                                     | IV - 8  |
| Gambar 4.11 | : <i>Bar Cutter 2</i> .....                                     | IV - 8  |
| Gambar 4.12 | : Genset .....  | IV - 8  |
| Gambar 4.13 | : <i>Trafo Las</i> .....  | IV - 9  |
| Gambar 4.14 | : Vibrator .....  | IV - 9  |
| Gambar 4.15 | : Kompresor Udara .....   | IV - 10 |
| Gambar 4.16 | : <i>Bekisting Climbing form work ( core wall</i> .....         | IV - 11 |
| Gambar 4.17 | : <i>Bekisting Konvensional Multiplek ( balok )</i> .....       | IV - 11 |
| Gambar 4.18 | : <i>Bekisting Climbing form work ( kolom )</i> .....           | IV - 11 |
| Gambar 4.19 | : <i>Bekisting konvensional Multiplek ( plat lantai )</i> ..... | IV - 12 |
| Gambar 4.20 | : <i>Bekisting plat Baja/Bondex ( plat lantai )</i> .....       | IV - 12 |

---

|             |  |         |
|-------------|--|---------|
| Gambar 4.21 | : Bagian-bagian <i>Scaffolding</i> .....                 | IV - 14 |
| Gambar 4.22 | : <i>Peri Girder</i> .....                               | IV - 15 |
| Gambar 4.23 | : <i>Table Beam PHC</i> .....                            | IV - 15 |
| Gambar 4.24 | : Alat Ukur <i>Theodolit</i> .....                       | IV - 16 |
| Gambar 4.25 | : Alat Ukur <i>Laser Level</i> .....                     | IV - 16 |
| Gambar 4.26 | : Pompa Air .....  | IV - 17 |
| Gambar 4.27 | : <i>Thermo Coupler</i> .....                            | IV - 17 |
| Gambar 4.28 | : <i>Thermo Coupler2</i> .....                           | IV - 17 |
| Gambar 4.29 | : Bor Listrik .....                                      | IV - 18 |
| Gambar 4.30 | : <i>Blower</i> .....                                    | IV - 18 |
| Gambar 4.31 | : <i>Trower Finish</i> .....                             | IV - 19 |
| Gambar 4.32 | : <i>Flacing Boom</i> .....                              | IV - 20 |
| Gambar 4.33 | : Besi Tulangan .....                                    | IV - 20 |
| Gambar 4.34 | : <i>Sterofom</i> .....                                  | IV - 22 |
| Gambar 4.35 | : <i>Pipe Support</i> .....                              | IV - 23 |
| Gambar 4.36 | : Beton <i>Decking</i> .....                             | IV - 24 |
| Gambar 5.1  | : Titik <i>Bored Pile</i> .....                          | V - 1   |
| Gambar 5.2  | : <i>Hydraulic drilling rig type SR-40 EVO</i> .....     | V - 8   |
| Gambar 5.3  | : <i>Service Crane of minimum</i> .....                  | V - 8   |
| Gambar 5.4  | : Pengukuran titik <i>bored pile</i> .....               | V - 9   |
| Gambar 5.12 | : Proses <i>drilling</i> .....                           | V - 20  |
| Gambar 5.13 | : Instalasi tendon .....                                 | V - 21  |
| Gambar 5.14 | : <i>Concrete block, bracket, dan bering plate</i> ..... | V - 21  |
| Gambar 5.15 | : <i>Anchor block / head</i> .....                       | V - 22  |

| Gambar 5.16 : <i>Ground anchor</i> .....                                | V - 23 |
| Gambar 5.17 : <i>Exavator</i> .....                                     | V - 24 |
| Gambar 5.18 : <i>Dump druck</i> .....                                   | V - 24 |
| Gambar 5.19 : Zona Galian .....   | V - 25 |
| Gambar 5.20 : Proses galian .....                                       | V - 26 |
| Gambar 5.21 : <i>Layout pondasi pile cap</i> .....                      | V - 30 |
| Gambar 5.22 : Kolom .....   | V - 30 |
| Gambar 5.23 : Balok dan plat .....                                      | V - 31 |
| Gambar 5.24 : Pemotongan tulangan .....                                 | V - 34 |
| Gambar 5.25 : Pembengkokan tulangan .....                               | V - 35 |
| Gambar 5.26 : Beton Decking pada Tulangan Pelat .....                   | V - 39 |
| Gambar 5.27 : Tulangan Cakar Ayam .....                                 | V - 39 |
| Gambar 5.28 : Penulangan Pelat dan Balok .....                          | V - 39 |
| Gambar 5.30 : Penulangan kolom .....                                    | V - 41 |
| Gambar 5.31 : Proses pembesian kolom .....                              | V - 41 |
| Gambar 5.32 : Overlap tulangan kolom .....                              | V - 42 |
| Gambar 5.33 : Tulangan kolom diangkat <i>tower crane</i> .....          | V - 42 |
| Gambar 5.34 : Tulangan kolom dan beton <i>decking</i> .....             | V - 42 |
| Gambar 5.35 : <i>Bekisting</i> kolom diangkat <i>tower crane</i> .....  | V - 43 |
| Gambar 5.36 : Pengecoran plat lantai .....                              | V - 49 |
| Gambar 5.37 : Perataan pengecoran pelat lantai dengan raskam .....      | V - 50 |
| Gambar 5.38 : Penuangan beton <i>ready mix ke concrete bucket</i> ..... | V - 52 |
| Gambar 5.39 : Pengecoran kolom dengan <i>concrete bucket</i> .....      | V - 52 |
| Gambar 5.40 : <i>Slump Test</i> 12+/- 2 .....                           | V - 53 |
