BAB I. PENDAHULUAN..........................................................1
  A. Latar Belakang.........................................................1
  B. Rumusan Masalah..................................................2
  C. Tujuan Perancangan ..............................................2
  D. Manfaat Perancangan ..............................................2

BAB II. MODE PERANCANGAN................................................3
  A. Orisinilias............................................................3
  B. Target/ Kelompok Pengguna (Khalayak Sasaran)..................3
  C. Relevansi dan Konsekuensi Studi..................................3
  D. Skema Proses Desain..............................................5

BAB III. DATA DAN ANALISA PERANCANGAN..............................6

BAB IV. KONSEP PERANCANGAN DAN HASIL DESAIN........................16
  A. Tataran Lingkungan/ Komunitas (Community Level)..............16
  B. Tataran Sistem (System Level)....................................17
  C. Tataran Produk (Product level)....................................21
  D. Tataran Komponen (Components Level)............................31

BAB V. UJI DESAIN..............................................................36
  A. Deskripsi Karya.........................................................36
  B. Kegiatan Uji Desain..................................................40
  C. Hasil Uji Desain..........................................................42
  D. Kesimpulan.................................................................48

LAMPIRAN.....................................................................50
