BAB III METODE PENELITIAN........................................................................................................ 70
A. Waktu Dan Tempat Penelitian............................................................................................... 70
B. Desain Penelitian.................................................................................................................. 70
C. Definisi dan Operasional Variabel....................................................................................... 71
   1. Definisi Variabel.................................................................................................................. 71
      a. Variabel Independen ........................................................................................................ 72
      b. Variabel Dependen .......................................................................................................... 72
      c. Variabel Intervening ....................................................................................................... 73
   2. Operasional Variabel ........................................................................................................ 74
D. Pengukuran Variabel .......................................................................................................... 77
E. Populasi dan Sampel Penelitian........................................................................................... 77
   1. Populasi Penelitian ............................................................................................................ 77
   2. Sampel Penelitian ............................................................................................................. 78
F. Teknik Pengumpulan Data.................................................................................................... 79
G. Jenis Data Penelitian............................................................................................................. 80
H. Metode Analisis Data........................................................................................................... 80
   1. IBM SPSS Statistic 20 ....................................................................................................... 80
      a. Analisis Deskriptif .......................................................................................................... 80
   2. Uji Instrumen ................................................................................................................... 81
   3. Partial Least Square (PLS) ............................................................................................... 82

BAB IV HASIL DAN PEMBAHASAN ......................................................................................... 89
A. Gambaran Umum Objek Penelitian..................................................................................... 89
   1. Gambaran Umum Daerah Khusus Ibukota Jakarta ............................................................ 89
   2. Jumlah Waria di DKI Jakarta ............................................................................................ 90
B. Analisis Statistik Deskriptif ................................................................................................ 92
   1. Usia Responden ................................................................................................................ 92
   2. Pekerjaan Responden ....................................................................................................... 93
   3. Pendidikan Responden .................................................................................................... 94
   4. Domisili Responden ........................................................................................................ 95
C. Hasil Uji Statistik Deskriptif ................................................................................................ 96
   1. Variabel Self-Esteem ......................................................................................................... 97
   2. Variabel Anxiety ................................................................................................................ 98
   3. Variabel Personal Adjustment .......................................................................................... 98
   4. Variabel Stress .................................................................................................................. 99
D. Metode Analisis Data Partial Least Square ....................................................................... 100
   1. Evaluasi Measurement (Outer Model) .......................................................................... 100
   2. Pengujian Model Struktural (Inner Model) ................................................................. 109
E. Pembahasan Hasil Penelitian ................................................................. 116
  1. Pengaruh Self-Esteem terhadap Personal Adjustment ................. 116
  2. Pengaruh Anxiety terhadap Personal Adjustment ....................... 117
  3. Pengaruh Personal Adjustment terhadap Stress ......................... 119

BAB V KESIMPULAN DAN SARAN .............................................................. 121
  A. Kesimpulan ........................................................................................... 121
  B. Saran ...................................................................................................... 122
     1. Saran untuk Waria ............................................................................ 122
     2. Saran untuk Peneliti Selanjutnya ..................................................... 123
