

ABSTRAK

Penelitian ini bertujuan untuk menganalisis pengaruh *financial distress* terhadap harga saham dan volume perdagangan pada perusahaan pulp dan kertas yang terdaftar di Bursa Efek Indonesia selama periode 5 tahun (2013 – 2017). Dengan menggunakan *purposive sampling* diperoleh sampel sebanyak 8 perusahaan pulp dan kertas. Metode analisis data yang digunakan adalah Uji Determinasi, Uji t, Uji Regresi Linier Sederhana. Dengan digunakan teori Altman Z Score pada rasio keuangan perusahaan dan dilanjutkan ke pengujian hasil statistik menunjukan bahwa *financial distress* tidak berpengaruh signifikan terhadap harga saham dan *financial distress* tidak berpengaruh tidak signifikan terhadap volume perdagangan saham meskipun kondisi perusahaan secara fundamental tidak baik tetapi respon pasar tidak terlalu berdampak pada pergerakan harga saham dan volume perdagangan saham secara keseluruhan.

Kata Kunci : *Financial Distress, Harga Saham, Volume Perdagangan Saham*

ABSTRACT

This research aims to analyze the influence of financial distress against the stock price and trading volume in the pulp and paper companies were listed on the Indonesia stock exchange for a period of 5 years (2013 – 2017). By using purposive sampling obtained samples as much as 8 pulp and paper company. Methods of data analysis used was Determination Test, test t, a simple Linear regression test. With the use of the theory of Altman Z Score on the company's financial ratios and continued to test statistical results showed that significant financial distress had no effect against the stock price and financial distress had no effect not significant against stock trading volume despite the company fundamentally is not good but the market response was not overly impact on the movement of the stock price and trading volume of the stock as a whole.
