

ABSTRAK

Penelitian ini bertujuan untuk menguji pengaruh opini *going concern*, ukuran KAP, dan return on assets terhadap *auditor switching*. Penelitian ini menggunakan sampel perusahaan industri dasar dan kimia yang terdaftar di Bursa Efek Indonesia selama periode 2014-2016.

Jumlah perusahaan industri dasar dan kimia yang dijadikan sampel penelitian ini adalah 46 perusahaan dengan pengamatan selama 3 tahun. Berdasarkan metode *purposive sampling*, total sampel penelitian adalah 138 laporan keuangan. Pengujian hipotesis dalam penelitian ini menggunakan analisis regresi logistik.

Hasil penelitian ini menunjukkan bahwa terdapat hubungan positif dan signifikan antara opini *going concern* terhadap *auditor switching*. Hal ini dibuktikan dengan hasil uji regresi logistic menunjukkan nilai signifikan dari satu variabel bebas yang mendukung hipotesa. Oleh karena itu hasil uji dari penelitian ini menyatakan bahwa terdapat pengaruh antara variable opini *going concern* terhadap *auditor switching* pada perusahaan industri dasar dan kimia.

Kata kunci: Opini *going concern*, ukuran KAP, return on assets , *auditor switching*.

ABSTRACT

This study aims to examine the effect of going concern opinion, KAP size, and return on assets on auditor switching. This study uses a sample of basic and chemical industry companies listed on the Indonesia Stock Exchange during the 2014-2016 period.

The number of basic and chemical industry companies used as the sample of this study were 46 companies with observations for 3 years. Based on the purposive sampling method, the total research sample was 138 financial statements. Testing the hypothesis in this study using logistic regression analysis.

The results of this study indicate that there is a positive and significant relationship between going concern opinion on auditor switching. This is evidenced by the results of the logistic regression test showing significant values of one independent variable that supports the hypothesis. Therefore the results of the test from this study state that there is an influence between going concern opinion variables on auditor switching in basic and chemical industry companies.

Keywords: going concern opinion, KAP size, return on assets, auditor switching
