DAFTAR TABEL

Tabel 1.1 Perkembangan Nilai Tambah Industri Besar dan Sedang Indonesia ....... 4
Tabel 2.1 Kajian Penelitian sebelumnya ................................................................. 60
Tabel 2.1 Matrik hubungan kajian penelitian sebelumnya
dengan penelitian yang akan dilakukan .......................................................... 63
Tabel 3.1 Operasional Variabel Penelitian............................................................. 72
Tabel 3.2 Matrik Korelasi Antar Dimensi.............................................................. 82
Tabel 3.3 Interpretasi Nilai Korelasi Dimensi....................................................... 82
Tabel 4.1 Outer Loading (Running Ke-1).............................................................. 89
Tabel 4.2 CR dan AVE Running Kerangka Konsep Ke-2 ................................. 91
Tabel 4.3 Outer Loading (Running Ke-2).............................................................. 92
Tabel 4.4 CR dan AVE Running Kerangka Konsep Ke-3 ................................. 94
Tabel 4.5 Outer Loading (Running Ke-3).............................................................. 94
Tabel 4.6 CR dan AVE Running Kerangka Konsep Ke-4 ................................. 96
Tabel 4.7 Outer Loading (Running Ke-4).............................................................. 97
Tabel 4.8 Discriminant Validity ............................................................................. 97
Tabel 4.9 Hasil Kolinieritas Pada Inner Model ...................................................... 98
Tabel 4.10 Koefisien Model Struktural................................................................. 98
Tabel 4.11 Koefisien Determinasi........................................................................... 99
Tabel 4.12 Effect Size ............................................................................................ 100
Tabel 4.13 Relevansi Prediktif ............................................................................. 101
Tabel 4.14 Matriks Korelasi Antar Dimensi ....................................................... 102
