

## DAFTAR ISI

|   |      |
|---|------|
| Lembar Pernyataan.....                            | ii   |
| Lembar Pengesahan.....                            | iii  |
| Abstrak.....                                      | iv   |
| Kata Pengantar.....                               | vi   |
| Daftar Isi.....                                   | viii |
| Daftar Tabel.....                                 | xi   |
| Daftar Gambar.....                                | xii  |
| <br>BAB I            PENDAHULUAN                  |      |
| 1.1 Latar Belakang.....                           | 1    |
| 1.2 Tujuan Penelitian.....                        | 2    |
| 1.3 Rumusan Masalah.....                          | 2    |
| 1.4 Batasan Masalah.....                          | 3    |
| 1.5 Metodologi Penelitian.....                    | 3    |
| 1.6 Sistematika Penulisan.....                    | 3    |
| <br>BAB II            DASAR TEORI                 |      |
| 2.1 Jaringan LTE.....                             | 6    |
| 2.1.1 Arsitektur LTE.....                         | 7    |
| 2.2 Jaringan Backhaul.....                        | 7    |
| 2.3 Passive Optical Network.....                  | 8    |
| 2.3.1 Broadband Passive Optical Network (BPON)..  | 8    |
| 2.3.2 Ethernet Passive Optical Network (EPON).... | 8    |
| 2.3.3 Gigabit Passive Optical Network (GPON)...   | 8    |
| 2.3.4 Prinsip Kerja GPON.....                     | 9    |
| 2.3.3 Keunggulan GPON.....                        | 14   |
| 2.4 Parameter Kelayakan.....                      | 14   |

|   |    |
|---|----|
| 2.4.1 Link Power Budget.....                      | 15 |
| 2.4.2 Rise Time Budget.....                       | 15 |
| 2.5 Microwave.....                                | 17 |
| 2.6 Link Failure LTE.....                         | 18 |
| 2.7 Topologi Jaringan.....                        | 18 |
| 2.7.1 Topologi Ring.....                          | 19 |
| 2.7.2 Topologi Bus.....                           | 19 |
| 2.7.3 Topologi Point To Point.....                | 19 |
| 2.7.4 Topologi Star.....                          | 20 |
| <b>BAB III PENGAMBILAN DATA MEDIA TRANSMISI</b>   |    |
| 3.1 Sistematika Penelitian.....                   | 21 |
| 3.1.1 Menetukan Site yang Dimigrasi.....          | 22 |
| 3.1.2 Pengambilan Data Kapasitas Site Eksisting.. | 22 |
| 3.1.3 Perencanaan dan Simulasi.....               | 23 |
| 3.1.4 Eksekusi Migrasi dari Radio Microwave ke    |    |
| Fiber Optik.....                                  | 23 |
| 3.1.5 Monitoring dan Analisa Performansi.....     | 23 |
| 3.2 Jaringan Backhaul Eksisting.....              | 23 |
| 3.3 Jaringan Backhaul yang dimigrasi.....         | 26 |
| 3.4 Spesifikasi Perangkat.....                    | 27 |
| 3.4.1 Optical Line Terminal (OLT).....            | 27 |
| 3.4.2 Fiber Optik.....                            | 28 |
| 3.4.3 Konektor.....                               | 29 |
| 3.4.4 Splitter.....                               | 29 |
| 3.4.5 Optical Network Terminal (ONT).....         | 29 |
| 3.5 Pengukuran dan Simulasi.....                  | 31 |

|   |    |
|---|----|
| 3.6 Standar Jaringan GPON.....                  | 32 |
| <br>  |    |
| <b>BAB IV ANALISA DAN PENGUKURAN</b>            |    |
| 4.1 Simulasi Perancangan.....                   | 33 |
| 4.1.1 Konfigurasi Simulasi Downlink.....        | 34 |
| 4.1.2 Konfigurasi Simulasi Uplink.....          | 35 |
| 4.2 Perhitungan Link Power Budget dan Rise Time |    |
| Budget.....                                     | 36 |
| 4.2.1 Link Power Budget.....                    | 36 |
| 4.2.1.1 Link Power Budget Downstream...         | 37 |
| 4.2.1.2 Link Power Budget Upstream.....         | 38 |
| 4.2.2 Rise Time Budget.....                     | 40 |
| 4.3 Perhitungan sistem SNR dan BER.....         | 42 |
| 4.4 Analisa Perhitungan dan Simulasi.....       | 45 |
| 4.5 Analisa Pengukuran Data.....                | 47 |
| 4.5.1 Pengukuran Payload.....                   | 47 |
| 4.5.2 Pengukuran Throughput.....                | 49 |
| 4.5.3 Pengukuran Data User.....                 | 50 |
| 4.5.4 Pengukuran Delay.....                     | 51 |
| 4.5.5 Pengukuran Packet Loss.....               | 53 |
| <br>  |    |
| <b>BAB V KESIMPULAN DAN SARAN</b>               |    |
| Kesimpulan.....                                 | 55 |
| Saran.....                                      | 56 |
| DAFTAR PUSTAKA.....                             | 57 |
| LAMPIRAN.....                                   | 59 |
