ACKNOWLEDGEMENT

I would like to thank my committee members, **my father and my mother** , whose work demonstrated to me that concern for global affairs supported by an ‘engagement’ in comparative literature and modern technology should always transcend academia and provide a quest for our times.

I would like to express the deepest appreciation to my committee chair , **DR. IR IWAN KRISNADI**, who has the attitude of a genius; he continually and convincingly conveyed a spirit of adventure in regard to research and scholarship, and an excitement in regard to teaching. Without his guidance and persistent help this thesis would not have been possible.

I would like to thank my committee members, **PROF DR.-ING, MUDRIK ALAYDRUS** , whose work demonstrated to me that concern for global affairs supported by an ‘engagement’ in comparative literature and modern technology should always transcend academia and provide a quest for our times.

I would like to give a special thank you as well for Mr. Marwan M. Altoumah, for his always support and motivation. For teaching me a lot. He helped me a lot for all parts that I have to do in my thesis.

I would like to give a special thank you as well for Mr. Herry Setiawan, for his support.

In addition, a thank you to my **classes mates**, who introduced me to Linguistics, and whose enthusiasm for the “underlying structures” had lasting effect. I thank the University of Mercu Buana for permission to include copyrighted photographs as part of my thesis. I also thank my brother and sisters for the support they always push in me.
