Stasiun Kereta Api adalah tempat di mana para penumpang dapat naik-turun dalam memakai sarana transportasi kereta api. Selain stasiun, pada masa lalu dikenal juga dengan halte kereta api yang memiliki fungsi nyaris sama dengan stasiun kereta api

Stasiun kereta api umumnya terdiri atas tempat penjualan tiket, peron atau ruang tunggu, ruang kepala stasiun, dan ruang PPKA (Pengatur Perjalanan Kereta Api) beserta peralatannya, seperti sinyal, wesel (alat pemindah jalur), telepon, telegraf, dan lain sebagainya. Stasiun besar biasanya diberi perlengkapan yang lebih banyak daripada stasiun kecil untuk menunjang kenyamanan penumpang maupun calon penumpang kereta api, seperti ruang tunggu, restoran, toilet, mushalla, area parkir, sarana keamanan (polisi khusus kereta api), sarana komunikasi, depo lokomotif, dan sarana pengisian bahan bakar.

Konsep gaya yang di pakai pada perancangan desain interior stasiun kereta api Duri menggunakan gaya Modern, Gaya modern adalah gaya desain yang simple, bersih, fungsional, stylish dan selalu mengikuti perkembangan jaman yang berkaitan dengan gaya hidup modern yang sedang berkembang pesat. Gaya hidup modern ditopang oleh kemajuan teknologi, dimana banyak hal yang sebelumnya tidak bisa dibuat dan didapatkan menjadi tersedia bagi banyak orang.

Railway Station is a place where passengers can go up and down in the use of rail transportation. In addition to the station, in the past also known as a train stop that has a function almost the same as the train station

Train stations generally consist of ticket venues, platforms or waiting rooms, station head rooms, and PPKA (Railway) rooms and their equipment, such as signals, drafts, telephone, telegraphs, and so on. Large stations are usually provided with more equipment than small stations to support the comfort of passengers and train passengers, such as waiting rooms, restaurants, toilets, mushalls, parking areas, security facilities (railway police), communication facilities, locomotive depots, and means of refueling.

The concept of style that is used in the design of interior design Duri railway station using Modern style, Modern style is a simple style design, clean, functional, stylish and always follow the development of the era associated with modern lifestyle is growing rapidly. The modern lifestyle is sustained by technological advancement, where many things that previously could not be made and obtained became available to many people.
