

## ABSTRACT

Name : Denny Askar Kurniawan  
Student Number : 41515210050  
Counsellor : Sri Dianing Asri ST, MKom.  
Title : Aplikasi Peminjaman Ruangan dan Gedung Pada  
Universitas Mercu Buana Kampus D Jatisampurna  
Berbasis Web

*Mercu Buana University has several campuses in Indonesia, have many ranks in developing education in it, including BAU. BAU (General Administration Bureau) is a work unit that manages all licensing of campus activities including borrowing room / buildings and equipment on the campus of the Mercu Buana University. In borrowing a building, students still have to ask the schedule directly by visiting BAU. In this case the BAU of the Mercu Buana University uses a web-based application to help make it easier to borrow rooms and buildings and apply the Bubble Sort algorithm to sort the data most often borrow. With the method of interviewing and literature study used in searching internet articles and literature related to data collection. The results expected in this study are to facilitate the borrowing of rooms or buildings at the University Mercu Buana Campus D Jatisampurna.*

Key words:

*Web, Universitas Mercu Buana, Lending, Room/Building, Bubble Sort.*
