

THE RELATIONSHIP PARENTAL SOCIAL SUPPORT ON  
ACHIEVEMENT MOTIVATION IN X HIGH SCHOOL JAKARTA  
STUDENT DURING PANDEMIC COVID-19

Analaizer Eva Priscilla Tittaley

**ABSTRACT**

Parental social support during the Covid-19 pandemic has an important role because it is considered the person who has the most intense meetings with students. Parental social support also plays an important role in student achievement. Student's achievement motivation is something that grows and develops with the help of environmental interactions or social support, including parental social support. In this study, the research aimed to see whether there was a relationship between parental social support on achievement motivation during pandemic Covid-19. This research uses quantitative methods with non-probability sampling method ( $N=149$  participants). The result show there is significant relationship parental social support on achievement motivation ( $P\text{-Value } 0.498$ ,  $\text{Sig. } 0.000$ ). Coefficient correlation show positive relationship, where the higher parental social support, the higher the student's achievement motivation.

Key Words: *Parental social support, achievement motivation, pandemic Covid-19*

**HUBUNGAN DUKUNGAN SOSIAL ORANG TUA DENGAN  
MOTIVASI BERPRESTASI SISWA SMA DI SEKOLAH X  
JAKARTA DI MASA PANDEMI COVID-19**

**ABSTRAK**

Dukungan sosial orang tua selama pandemi Covid-19 memiliki peran penting karena dianggap sebagai sosok yang memiliki pertemuan paling intens dengan siswa. Dukungan sosial orang tua juga berperan penting terhadap prestasi siswa. Motivasi berprestasi sendiri merupakan sesuatu yang tumbuh dan berkembang dengan bantuan interaksi lingkungannya atau dukungan sosialnya termasuk orang tua. Penelitian ini bertujuan untuk mengetahui hubungan dukungan sosial orang tua dengan motivasi berprestasi selama masa pandemi Covid-19. Metode penelitian ini menggunakan pendekatan kuantitatif dengan teknik sampling jenuh ( $N= 149$  partisipan). Hasil penelitian menunjukkan terdapat hubungan yang signifikan antara dukungan sosial orang tua dengan motivasi berprestasi siswa SMA X Jakarta di masa pandemi Covid-19 (Nilai  $p: 0.498$ , Sig. 0.000). Hasil koefisien regresi bersifat positif yang artinya semakin tinggi dukungan sosial orang tua maka semakin tinggi pula motivasi berprestasi siswa SMA X Jakarta di masa pandemi Covid-19.

Kata kunci: *Dukungan sosial orang tua, motivasi berprestasi, pandemi Covid-19*
