

ABSTRAK

Perkembangan sektor pariwisata di Indonesia semakin meningkat, meskipun sempat surut pada saat masa pandemi. Namun kini Indonesia perlahan mulai bangkit kembali dan angka kunjungan pariwisata baik lokal maupun mancanegara mulai terjadi kenaikan. Kabupaten Bogor adalah salah satu wilayah yang menjadi destinasi wisata Ibu Kota karena lokasinya yang strategis dan terdapat beberapa destinasi wisata alam alami maupun buatan yang harus dikunjungi.

Megamendung Resort hadir dengan desain bergaya modern yang dirancang dengan merespon kondisi iklim tropis. Dilengkapi dengan fasilitas seperti hotel, restaurant, gym, spa, ballroom & outdoor area. Dengan rancangan yang memperhatikan lingkungan sekitar, maka ke-alamian dan ke-asrian dapat terjaga dan memberi kesan nyaman bagi pengguna.

ABSTRACT

The development of the tourism sector in Indonesia is increasing, although it has receded during the pandemic. But now Indonesia is slowly starting to rise again and the number of tourism visits, both local and foreign, is starting to increase. Bogor Regency is one of the areas that has become a tourist destination for the capital city because of its strategic location and there are several natural and artificial tourist destinations that must be visited.

Megamendung Resort comes with a modern style design that is designed to respond to tropical climate conditions. Equipped with facilities such as hotel, restaurant, gym, spa, ballroom & outdoor area. With a design that pays attention to the surrounding environment, naturalness and beauty can be maintained and give the user a comfortable impression.

Key : Bogor, Tropical Architecture, Modern Architecture.
