

ACKNOWLEDGEMENT

To God Be The Glory, I have finished my 4 weeks Industrial Training from early March till early April. I would like to say thankyou to Jesus Christ for His love and faithfulness towards me, my family for their moral and financial support, and my friends who has been loyal and supportive during this Industrial Training. I would like to thank Universitas Mercu Buana and Universiti Tun Hussein Onn Malaysia, for giving me an opportunity to joining this Overseas Industrial Training, Dr. Ahmad Zurisman Bin Mohd Ali as my Faculty Supervisor for helping me doing my report, and Mr. Fadzlee Nizam Bin Ja'afar as my Industrial Supervisor for the guidance, and keep monitoring the progress of the interns on site, and to all the staff in Pejabat Pembangunan dan Penyenggaraan, and in ORICC site who has been helping me during this Industrial Training.

I am entrusted to undergo my Industrial Training at Pejabat Pembangunan dan Penyenggaraan Universiti Tun Hussein Onn Malaysia for 4 weeks, for monitoring the works of Office for Research, Innovation, Commercialization and Consultancy Management of University Tun Hussein Onn Malaysia (ORICC) on site. During this 4 weeks, I learn a new things for being interns in the other country, how to have a great teamwork and how to solve any problem by my own. In this Industrial Training, I get a great opportunity to implements what has been learned from class into the real work-life on site, and know the difference between theory and practical works.

I have known that learning from book and class will never enough. We need to go on field to know what the reality is. And knowledges is useless if there is no skill and manners inside of it. So I learn to improve my communication skill, confidence, teamwork, have a good attitude towards fellow workers, and have a big responsibility for every works.
