ID Student : 41519010117
Name : Aditya Murti Kusuma Atmaja
Study Program : Informatics Engineering
Thesis Report Title : Multi-layer perceptron neural network for analyzing the variant of coronavirus disease of 2019 spread

Declare that this thesis report is the result of my own work and not plagiarism, and all sources, both cited and referred to, have been stated correctly. If it turns out that my thesis report contains elements of plagiarism, then I am ready to receive academic sanctions that apply at Mercu Buana University

This Thesis Report is submitted by:

ID Student : 41519010117
Name : Aditya Murti Kusuma Atmaja
Study Program : Informatics Engineering
Thesis Report Title : Multi-layer perceptron neural network for analyzing the variant of coronavirus disease of 2019 spread

Has been successfully defended at a hearing before the Board of Examiners and accepted as part of the requirements needed to obtain a Bachelor's degree in the Informatics Engineering Study Program, Faculty of Computer Science, Universitas Mercu Buana.

Endorsed by:

Supervisor : Dr. Rahmat Budiarto, M.Eng ()
NIDN : 0316106106
Chief Examiner : Dr. Afiyati, S.Si, MT ()
NIDN : 0316106908
Examiner 1 : Indra Ranggadara, S.Kom., MT., MMSI ()
NIDN : 0318099102
Examiner 2 : Dr. Hadi Santoso, S.Kom, M.Kom ()
NIDN : 0225067701

FOREWORD

Praise and gratitude to the presence of God Almighty who has given His grace and guidance, so I can do this final report to complete my Bachelor of Informatics Engineering in Mercu Buana University. The author is fully aware that inmaking this Final Report it cannot be completed without any support, therefore I would like to express my deepest gratitude to:

1. Dr. Bambang Jokonowo, S.Si.,MTI. as Dean of Faculty of Computer Science, Universitas Mercu Buana.
2. Bagus Priambodo, ST., MTL., PhD, as Head of Department of Informatics Engineering, Universitas Mercu Buana.
3. Afiyati, Dr., S.Si, MT, as Secretary of International Department of Informatics Engineering, Universitas Mercu Buana.
4. Prastika Indriyanti S.Kom, M.Cs as Academic Supervisor.
5. Dr. Rahmat Budiarto, M.Eng as Thesis Supervisor, which he always support and never tired to push the author until this thesis finished.
6. All Lecturers have been dedicated to transferring they knowledge.
7. Both parents my father and my mother always provide prayers, advice and support to author.
8. My girlfriend always giving help in any situation
9. Also My Informatics Engineering Friends who have always been together since the first time starting college at Universitas Mercu Buana.

The author realizes that there are still many shortcomings in this report. Therefore,constructive feedback is allowed and I hope this report will be of usefull to other All Mercu Buana University students and also other students one day.

Jakarta, 18 August 2023

Aditya Murti Kusuma Atmaja

APPROVAL STATEMENT PAGE

As an academic member of Mercu Buana University, I, the undersigned :

Name : Aditya Murti Kusuma Atmaja
ID Student : 41519010117
Study Program : Informatics Engineering
Thesis Report Title : Multi-layer perceptron neural network for analyzing the variant of coronavirus disease of 2019 spread

For the sake of scientific development, I hereby give permission and agree to give University Mercu Buana a Non-Exclusive Royalty-Free Right for my scientific work entitled above along with existing tools (if needed).

With this Non-Exclusive Royalty-Free Right, Universitas Mercu Buana has the right to store, transfer/format, manage in the form of a database, maintain, and publish my internship/Thesis/Fisertation Report as long as it still includes my name as the author/ the creator and as the copyright owner.

This statement I made on truth.
