

ABSTRACT

This study aims to prove the effect of company size, auditor reputation, profitability and audit opinion on audit delay. The sample in this study were manufacturing companies on the consumer goods industry sector which were listed on the Indonesia Stock Exchange (IDX) during the period 2017 to 2021 using a purposive sampling technique, resulting in 19 companies and 95 company observation data. The data analysis technique used in multiple linear regression analysis. The results of this study indicate that company size, auditor reputation, audit opinion have no effect on audit delay, and profitability has an effect on audit delay.

Keywords: Audit Delay, Company Size, Auditor Reputation, Profitability, Opinion Audit
