## ACKNOWLEDGMENT

First of all, I would like to say thank to ALLAH SWT, for enlightening me in passing every chapter of this thesis. I am also thankful to the Prophet Muhammad Saw, for teaching me the right way to live.

This thesis is the manifestation of my eagerness in finding out about television documentary and its creativity behind. For me, every broadcasting student belongs to be a part of an audio-visual media. Since creativity becomes the important element behind every television program, therefore we should be involved in a program production to be able discovering how to produce it. I wish this study can motivate television stations to produce genuinely creative programs, and the audience to be smarter in selecting what programs to watch.

I couldn't finish this work without the existence and support from my loving ones. Huge thanks I present to dearest Mama and Baba, who give me a never-ending support to be a successful girl and make me who I am today. Big thanks also for my older siblings: Mahdi, for inspiring me with his abundant creative things; Mila, for being the only sister whom I can share everything with, and Aji, for every single lesson of life you taught me. I'm so glad to be the youngest children and have such siblings.

I also would like to thank my kind Advisor, Sofia Aunul, M.Si, who has guided and helped me a lot in the process of making this thesis.

Furthermore, I would like to mention those who are also worth because of their kindness and support during my study in this college:

I promised to write his name on my thesis because he is my first inspiring lecturer in this college, in spite of we only met in the first three semesters of my study term. Thank you for the insights, the stories and the advice about “what you plant is what you harvest” that you might even forget ever told me.
2. Morissan M.A as my academic advisor.
