ABSTRACT

Currently, the cosmetics market in Indonesia is growing, one of which is the Somethinc brand which is believed to be a local beauty brand that uses halal ingredients and is free of harmful substances. Therefore, competition for market share of beauty products is very tight and can influence consumer buying interest. There are several factors that influence purchasing interest, such as brand ambassador, brand image and brand awareness. The aim of this research is to analyze the influence of brand ambassadors, brand image and brand awareness on interest in purchasing Somethinc skincare products. This type of research is explanatory research. The sample used was 300 respondents, calculated based on the Ferdinand formula using a purposive sampling technique. The sampling method uses non-probability sampling. The research instrument is a questionnaire. The data analysis method uses SEM (Structural Equation Model) analysis and hypothesis testing using SmartPLS 3.0 software. The results of this research show that brand ambassadors have a positive and significant effect on purchasing interest. Brand image has a positive and significant effect on purchasing interest. Brand awareness has a positive and significant effect on purchasing interest.

Keywords: brand ambassador, brand image, brand awareness and purchase interest.
